

Jordan Avery

Reporting Analyst

Melbourne VIC | 0400 000 123 | jordan.avery@example.com | linkedin.com/in/jordan-avery-example

PROFESSIONAL SUMMARY

Reporting analyst with eight years of experience in telecom and logistics. I build dashboards, automate month end reporting and check data quality before it reaches decision makers. Strong in SQL, Power BI and Excel, with working knowledge of Python.

WORK EXPERIENCE

Senior Reporting Analyst

Northwind Telecom, Melbourne VIC

Mar 2022 to Present

- Built 14 Power BI dashboards that regional managers use to track churn and retention.
- Rewrote the month end SQL scripts and cut report preparation from three days to four hours.
- Trained six analysts in data validation and version control.
- Presented monthly performance packs to the customer operations leadership team.

Data Analyst

Harbourline Logistics, Melbourne VIC

Jul 2019 to Feb 2022

- Automated 22 weekly Excel reports with Python, saving the team about 12 hours each week.
- Designed a SQL data model for delivery times across 9 depots.
- Worked with depot managers to define on time delivery measures.

Junior Data Analyst

Quillfeather Analytics, Geelong VIC

Feb 2018 to Jun 2019

- Cleaned and validated survey data for 30 client projects.
- Produced Tableau charts for client reports.

EDUCATION

Bachelor of Commerce (Business Analytics)

Eastlake University, 2014 to 2017

SKILLS

SQL, Power BI, Excel, Python, Tableau

Data validation, stakeholder reporting, dashboard design
